It's June and at last the long awaited monsoon has arrived. Rain drops like small diamond bits are dropping from the sky and cooling down our body and soul. Forget about the trouble of carrying an umbrella and wading through the water logged streets. Enjoy life to the fullest by listening to soft music while looking at the downpours outside and filling your lung with the hood smell “সোঁদা গন্ধ” **Sonda gondho** of the earth.

Let's heartily welcome this wonderful blessing of the Almighty.

SHANIBARER AASAR

Keeping the mass attendance in the recent Shanibarer Asars in mind, it is now proposed that once the necessary modifications and work related to additional facilities are complete, the asar will be held on Alumni Building roof top so as to ensure proper seating arrangement for all.

The theme for Shanibarer Asar held on 24th June 2017 was “gane gane bhuvan jora – celebrating World Music Day (21.6.17) & Legend Hemanta Mukhopadhyay’s birth day (16.6.17)”. Keeping these in mind, songs sung and composed by Hemanata Mukherjee were mostly presented. Also, one of our Senior member, Shree Asutosh Deb ('59 ME) gave a short synopsis on World Music day. Another senior member, Shree Dhiraj Mitra ('62 EE) gave a short talk on Ratha Yatra which was on the very next day (Sunday 25th June).

Mr. Dyuti S Banerjee ('86 Economics) Vice President of JU Alumni Melbourne Australia chapter was in Kolkata and actively participated in Shanibarer Asar. He played two of Hemanata Mukherjee’s song on his mouth organ which was liked very much by one and all.

However, mass participation being one of the prime objectives of all Alumni meets, the asar was declared open to “participants’ choice” after sometime. As usual, more than 50 alumnus and their family members were present and almost 80% of them performed. In fact it was very difficult to accommodate all willing performers within the limited time. Keeping this in mind, the sub-committee members are thinking of starting the asar at about 4.30 PM in future.

BUDHER AADDA

This adda, held on every Wednesday from 5.30 PM till about 7.30 PM, is most unique since this provides the chance for open and free both way communication of views among all participants. Being a true adda, the noise level often go a little too high but that fills up the lungs of the attendants with pure oxygen. Many issues helpful to the alumnus are also discussed and guidelines given.

One warning. Before any alumnus thinks of participating in Budher Adda for the first time, he/ she should keep in mind that once he/she does that, a very strong magnetic force will pull him/her very hard to Alumni Building 1st floor every budhbar.

Got a minute?

Believe it or not, this was written on the wall of a coffee shop in Singapore (Changi) airport. The lesson is, we should look for gems even at the most unexpected corners
