MILESTONE

Dr. Uma Sankar Sarma (JUAA Membership No 4386), who has had a distinguished and illustrious career has been appointed after his retirement as Director, Indian Jute Industries' Research Association (IJIRA), 17 Taratala Road, Kolkata. He is an alumnus of JU ('74 MSc Chem). He gained his PhD in Chemistry from Calcutta University subsequently and pursued a post Doctorate fellowship programme in France. He has made valuable contributions in various fields like Industrial Research, Doctoral Research, Experience with DRDO, UNDP assisted projects, etc. He is a National and International award winner and has published numerous important research oriented papers.

Got a minute?

The scholar with unkempt hair and thick glasses is drooping before the mike. He is delivering a speech on the benefits of ante-jentacular and post-prandial circumambulation. The humongous auditorium is, however, sparsely populated. As the scholar warms up to his theme and drones on, the few left on the back rows gradually make themselves scarce. But the single man in the otherwise empty front row is listening intently. Towards the end of the seemingly never-ending speech the back rows completely drain out. But the single front-row man sticks to his seat and continues to focus on the speaker. The latter notices him and feels grateful that at least one person has the brains to appreciate his intellectual endeavour. The speech ends. The scholar collects his papers from the lectern and climbs down from the podium. He halts before the lone listener and thanks him profusely for his patience. He then hears the reply: "No need to thank me, Sir. I am the next speaker"!

P.S. The speaker was not from JU!
